## T-OINOS MAVROSE

Vintage 2019

### T-OINOS project

The fine wine from a good vine planted in the right place, is the missing link between agriculture and haute couture. At its touch, we dive into beauty.

### Vintage 2019

Mild winter with high amount of rainfall. Budbreak commenced around middle of March. Flowering was set in spring with high amount of rainfall and low temperatures that went on until the end of April. Temperatures in May were slightly elevated and they increased significantly in June. July was very warm followed by a heavy rainfall at the end of it. August was mild with strong winds. Vintage is characterized as a difficult vintage due to the weather conditions and the hail that occurred at the beginning of April. Nevertheless, the high quality of grapes and the low amount of crop led to an excellent result.

Separate and successive handpicking of the grapes, in twenty kilos cages early in the morning. Grapes directly pressed. Fermentation in controlled temperatures.

Pale pink hue with violet reflections. The nose is full of cherry aromas with delicate red currant smell. Mouthwatering and fresh with a saline minerality aftertaste. A charming wine.

### Soil

Granite bedrock with sandy loam soil. Organically grown grapes Mavrotragano and Avgoustiatis plots are situated in 400m of altitude and density of the vines is 11.000 per ha. The yield is 25hl/ha.

### Varietal

80% Avgoustiatis  
20% Mavrotragano

### Harvest dates

11/09/19

### Alcohol

13%
